

REPUBLIC OF KENYA

MINISTRY OF ENERGY

SERVICE CONTRACT NOTICE

FED/2014/037-778 – INSTITUTIONAL CAPACITY BUILDING TO THE RENEWABLE ENERGY SECTOR IN KENYA UNDER THE ‘SUPPORT TO KENYA ENERGY AND TRANSPORT SECTOR (SKETS) PROGRAMME.

1.0 Introduction

The Government of Kenya has received financing from the European Union towards institutional capacity building to the renewable energy sector in Kenya under the Support to Kenya Energy and Transport Sector (SKETS)

2.0 Contract description

The scope of this contract is to provide institutional support that will assist National and County Government officials to implement the objectives of Sustainable Energy for All (SE4All) Action Agenda. More specifically it aims to support the National and County Energy Sector in the planning and implementation of Renewable Energy (RE), Energy Access (EA) and Energy Efficiency (EE) technologies and projects.

The support will consist in technical assistance and capacity building/training programme. It will be provided primarily to the Ministry of Energy and the County Governments. Private companies and civil society organizations working in the energy sector will benefit from the support.
